SUMMARY

Software Engineering student with hands-on experience building scalable full-stack applications using Python, FastAPI, React, and MySQL. Skilled in developing secure REST APIs, authentication systems, and AI-powered solutions through internships and real-world projects.

TECHNICAL SKILLS

Languages: Python, Java, SQL, JavaScript
Frontend: HTML, CSS, React, Tailwind CSS
Backend: FastAPI, REST APIs, JWT Authentication
Database & ORM: MySQL, SQLAlchemy
Tools: Git, GitHub
Concepts: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
AI/ML: NLP, TF-IDF, Cosine Similarity, LLM Applications, Prompt Engineering

EXPERIENCE

Artificial Intelligence Intern Oct 2025 – Dec 2025
Infosys Springboard Remote

- Worked on NLP-based resume screening and candidate matching using Python, TF-IDF, and cosine similarity.
- Contributed to skill extraction, candidate ranking, and recommendation workflows for recruitment automation.

Full Stack Development Intern Jun 2025 – Jul 2025
SinthanAI Academy On-Site

- Contributed to building and enhancing GenAI-powered web applications within a Full Stack Development team.
- Implemented frontend-backend integration, chatbots, and API-based communication workflows.

PROJECTS

LedgerStack - Billing & Invoice Management Platform

- Built a full-stack platform for managing customers, services, invoices, payments, and business billing operations with secure REST APIs, JWT authentication, PDF invoice generation, and revenue analytics dashboards.
- Designed database schemas and optimized backend workflows for invoice, customer, and payment management.
- Tech Stack:** React, FastAPI, MySQL, SQLAlchemy, JWT Authentication, Tailwind CSS

CapaBot - Resume Matcher and Skill Recommender

- Developed an NLP-based resume screening system using TF-IDF and cosine similarity for candidate-job matching, automating skill extraction and candidate ranking to reduce manual screening effort by approximately 40%.
- Implemented text preprocessing and similarity matching to improve candidate-job recommendation accuracy.
- Tech Stack:** Python, Natural Language Processing (NLP), TF-IDF, Cosine Similarity

ACHIEVEMENTS

- Secured 2nd Runner-Up at UWA Hack for Impact 2026, an international hackathon conducted by the University of Western Australia.
- Co-inventor of an Indian patent titled “AI-Powered Smart Hairbrush for Personalized Scalp Health Monitoring” (Published Jan 2026), focused on applying AI for real-time health insights.
- Won Consolation Prize at the AI Autonomous Hackathon 2025 for developing an A* search-based maze solver demonstrating efficient pathfinding and algorithmic optimization.

EDUCATION

R.M.D Engineering College Kavaraipettai, Tiruvallur
B.E. Computer Science and Engineering; CGPA: 7.88 2023 – 2027

Sir Sivaswami Kalalaya Matriculation Higher Secondary School Chennai
Higher Secondary Education; Percentage: 84.33% 2021 – 2023

CERTIFICATIONS

- NPTEL Introduction to Machine Learning by IIT Kharagpur (Elite)
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Meta Database Structures and Management with MySQL - Coursera
- Python Foundation Certification - Infosys Springboard
